

## STAIRMASTER® 10G

The innovative new design of the StairMaster 10G features our exclusive OverDrive Training Mode that simulates carrying or pushing a load up stairs, for the most intense climbing workout. The 10G's advancements all focus on delivering the best climbing experience ever created. User-focused features include the widest and deepest stepping surface and lowest step-up height in the industry, ergonomic handrails to support multiple climbing positions and an all new drive train that delivers smooth, quiet performance.

### OVERDRIVE TRAINING MODE

The new OverDrive Training Mode simulates carrying or pushing a load up stairs. Users choose either manual control or one of several pre-programmed interval workouts to create the toughest workout ever delivered on the cardio floor. The 10G handrails provide three hand positions for pushing, as well as farmer's carry handles.

### PRODUCT DESIGN FEATURES

The widest and deepest step in the industry and lowest step up height. Redesigned handrail system supports a variety of workout positions including push/carry in new OverDrive Training Mode and optimal entry/exit. Service panel removes with 4 fasteners, allowing easy access to drive train and electronics.
